On-boarding Introduction

Welcome to Progressive’s API developer portal. This document is meant to be an on-boarding initiation to the portal, how to register to the portal, and how to use it to access Progressive’s APIs.

Portal Developer Experience On-Boarding

In your browser go to <https://developer.progressive.com>

The screenshot shows the top section of the Progressive API developer portal. At the top, it says "Partner with Progressive" and "Create a seamless user experience with our APIs". Below this is an illustration of a white car parked in front of a house. Underneath the illustration are three product cards: "Affiliates Prefill Product", "Direct Quoting Product", and "Partner Product". Each card has a "Learn More" button. At the bottom of the page, there is a navigation bar with links for "Contact Us", "Accessibility Services", "Technical Help", "Privacy & Security", "Terms of Use", and "Insurance Resources".

Register A Developer Account

Follow the below instructions to register a portal developer account on the developer.progressive.com portal:

1. Click on any of the API’s and click on the “Learn More” button to view content about the API you are interested in.
2. Click on the “Register Here” button and fill out the registration form. Once you are approved you will receive an email to create an account.

The screenshot shows a section of the Progressive API developer portal. On the left, there is a blurred image of a line graph with numbers like 2.0, 2.5, and 2.47. On the right, there is a section titled "Partner Product" with the text "This API can be used to securely log audit or error information to Progressive." and a "Download Onboarding Doc" link. Below this, there is a section titled "Begin Onboarding Process" with the text "Begin the onboarding process by registering." and a "Register Here" button.

(All fields are required.)

* First Name or Company Name

* Last Name or Company Group Identifier

* Company Email

* Company Name

* API's of interest

Welcome to the Progressive Developer Portal

To begin working with our APIs please click the button below to visit our portal where you will be prompted to enable MFA(Multi Factor Authentication). Please pick a preferred mobile authenticator app then scan the QR Code to start the verification process.

Login

4. Multi-Factor Authentication (MFA) registration is required. You can use the Salesforce Authenticator app or the Microsoft Authenticator app (other reputable third-party authenticator apps might also work such as the Google authenticator app). To use an alternative to the Salesforce Authenticator app, click on “Choose Another Verification Method” and follow the steps in the below screenshots:

Connect Salesforce Authenticator

For security reasons, you have to connect Salesforce Authenticator to your account. The app sends a notification when we need to verify your identity, and you verify with just a tap. You can also enable location services to have the app verify you automatically from trusted locations. The app provides codes to use as an alternate verification method.

1. Download Salesforce Authenticator from the [App Store](#) or [Google Play](#) and install it on your mobile device.
2. Open the app and tap to add your account.
3. The app shows you a unique two-word phrase. Enter the phrase below.

Two-Word Phrase

Continue

Connect an Authenticator App

Connect an authenticator app that generates verification codes. You can use the codes when we need to verify your identity.

1. Download and install an authenticator app on your mobile device.
2. Use the app to scan this QR code.
3. Enter the code generated by the app.

Change Your Password

Enter a new password for Make
sure to include at least:

- 8 characters
- 1 letter
- 1 number

* New Password

* Confirm New Password

Change Password

Password was last changed on 3/21/2022, 9:54 AM.

Log into the Progressive Developer portal

Now that you are registered you can log into the Progressive Developer Portal by clicking the “login” button on the developer home page if you were not redirected to the login page during the registration process.

Partner with Progressive

Create a seamless user experience with our APIs

Follow the below instructions to login to your developer account:

1. Enter your email address used to register in the previous registration steps and use the password created to login.

A screenshot of a login form. At the top is the Progressive logo. Below it are two input fields: 'Email' with an envelope icon and 'Password' with a lock icon. A blue 'LOG IN' button is positioned below the fields. Underneath the button is a link that says 'Forgot your password?'.

2. Enter your verification code from the Authenticator App

3. You should be presented with the portal user screen with access to the API Products Group.

Here are the APIs you have access to:

Congratulations! You can now start using Progressive Partner APIs.
