Progressive Developer Portal

Hello Paul,

Your access request to Affiliates Prefill API - ACORD format for client application Paul Test has been approved. Please go to Progressive Developer Portal [https://developer. progressive.com/s/login] to find your client application credentials and start accessing this API.

The Progressive Developer Portal team

PROGRESSIVE®

Login to the portal and click on the "My Applications" tab to see your App's request status, API keys and metrics.
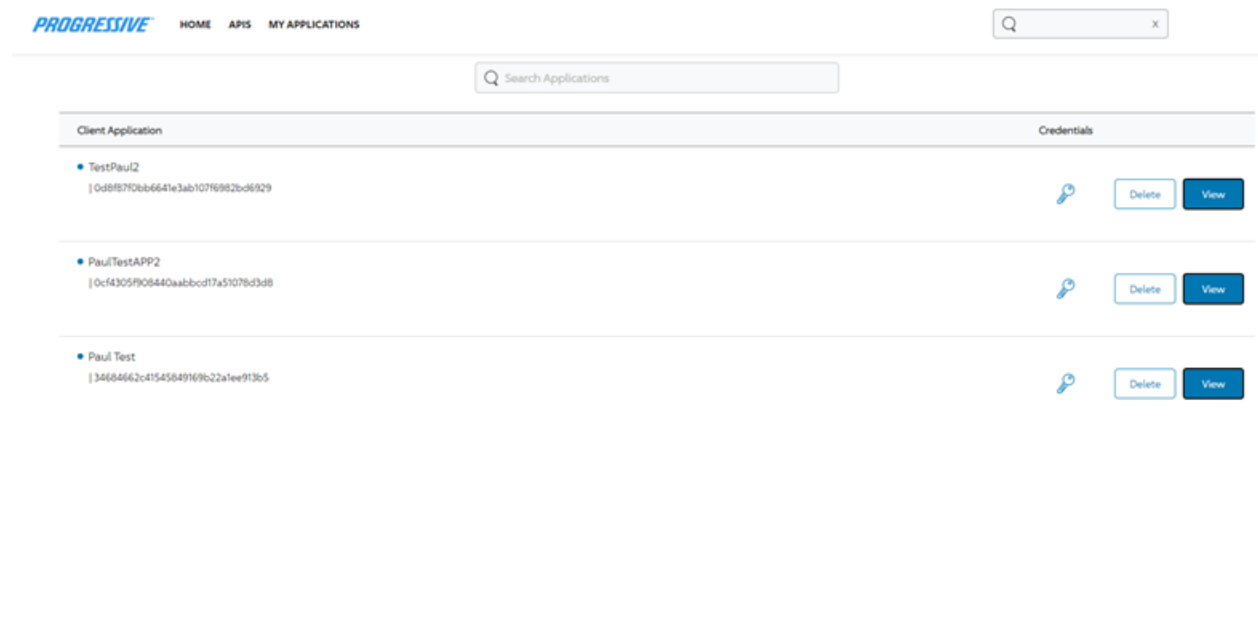

You can then verify your registered app has access to the API by looking in your My Applications tab and scrolling to the bottom of the Application page. In non-prod this is can be approved in a few minutes once we receive the request.

API	Environment/Instance	SLA Tier	Request Status
∨ Embedded Direct Quoting Product API Group v1			
Embedded Direct Quoting	∨ OAuth Provider	QA	Approved
	composite-stateless-embedded-direct		
	composite-stateless-embedded-disclosure		

In Prod it will take longer (usually within 24 hours). You will get notified via email as well when your app has been approved.

Congratulations! You can now start calling to the Embedded Direct Quoting API.
